

## 2022 PRICE LIST

Valid from 16 Aug 2022

**COUNTRY: SWITZERLAND**  
**SECTION: INFORMATION**

Switzerland is a Confederation consisting of 26 autonomous Cantons. This means that each information is managed independently by each Canton and there are no centralized databases to be consulted (except in very rare cases).

Therefore, researching for example the income, the employer or the properties owned by a person, potentially requires checking the data in each of the 26 Cantons, separately.

Laborious and onerous operation.

Since for each Canton there is information that can be obtained and others not, that the prices for the same information change from Canton to Canton and that prices vary according to the situation of the subject to be investigated (citizen/foreigner, resident/non-resident, etc.), we assessed that the elaboration of a price list would have led to many headaches for the customer in the consultation phase.

Therefore, we invite you to send you the specific case from time to time and we will provide you with a dedicated quote.

For ITALY we invite you to check the dedicate price list, available on our website.

For all OTHER COUTRIES we are at your disposal for a dedicated quote.

**COUNTRY: SWITZERLAND**  
**SECTION: INVESTIGATIONS**

Item	Cost
Hourly rate	Chf 70.00
Call out fee *	Chf 30.00
